#### GENERAL ASSEMBLY OF NORTH CAROLINA

#### **SESSION 1993**

S 1 SENATE BILL 972\* Short Title: Rad Tech Practice Act. (Public) Sponsors: Senators Ballance; and Sherron. Referred to: Judiciary I. May 19, 1993 1 A BILL TO BE ENTITLED 2 AN ACT TO ENACT THE RADIATION TECHNOLOGY PRACTICE ACT. 3 The General Assembly of North Carolina enacts: Section 1. Chapter 90 of the General Statutes is amended by adding a new 4 5 Article to read: "ARTICLE 28. 6 "RADIATION TECHNOLOGY PRACTICE ACT. 7 8 "§ 90-404. Short title. This Article may be cited as the 'Radiation Technology Practice Act'. 9 "§ 90-405. Policy and purpose. 10 In order to protect the public health and safety, it is the policy of the State of North 11 Carolina to reduce the harmful effect of excessive and improper exposure to ionizing 12 radiation during medical diagnosis and treatment. The General Assembly of North 13 Carolina finds that mandatory licensure of all who engage in the practice of radiation 14 technology is necessary to ensure minimum standards of competency and to provide the 15 public with safe care. 16 "§ 90-406. Definitions. 17 18 In this Article, unless the context otherwise requires, the following definitions shall 19 apply: 'Board' means the North Carolina Board of Radiation Technology 20 (1) Examiners as created by G.S. 90-407. 21 'Educational program' means any educational program in North 22 (2) Carolina that:

23

- 1 (14) 'Radiologic technologist' or 'radiographer' means any individual who is
  2 licensed under this Article for the technical application to a human
  3 being of ionizing radiation other than radioactive materials, for
  4 diagnostic purposes while under the supervision of a licensed
  5 practitioner.
  - (15) 'Supervision' means a determination by a licensed practitioner that ionizing radiation shall be applied to a human being for diagnostic or therapeutic purposes, but supervision does not mean overseeing the application of ionizing radiation to the patient.

## "§ 90-407. Board of Examiners created.

- (a) The North Carolina Board of Radiation Technology Examiners is hereby created.
- (b) Composition. The Board shall consist of seven members including six radiation technologists, four of whom shall be radiologic technologists, one of whom shall be a nuclear medicine technologist, and one of whom shall be a radiation therapy technologist, and one public member.

The initial Board members shall be selected on or before August 1, 1993, as follows:

The General Assembly, upon the recommendation of the Speaker of the House of Representatives, shall appoint two radiologic technologists and one nuclear medicine technologist to the Board. One of the radiologic technologists shall serve for a term of three years and the other radiologic technologist shall serve for a term of one year. The nuclear medicine technologist shall serve for a term of two years.

The General Assembly, upon the recommendation of the President Pro Tempore of the Senate, shall appoint two radiologic technologists and one radiation therapy technologist to the Board. The radiologic technologists shall serve for terms of two years. The radiation therapy technologist shall serve for a term of one year.

The Governor shall appoint for a three-year term a public member to the Board who shall be the president of one of the member institutions of the North Carolina System of Community Colleges which offers a Radiation Technology program meeting all requirements of this Article.

- (c) Selection. The Board shall conduct an election each year to fill vacancies of radiation technologists of the Board, scheduled to occur during the next year. All radiation technologists licensed to practice radiation technology in this State and residing or practicing in this State shall be eligible to vote in the election. The holding of a license to practice radiation technology in this State shall constitute registration to vote in such elections. Board members shall be commissioned by the Governor upon their election or appointment.
- (d) Qualifications. The six radiation technologist members shall hold current licenses and shall reside in North Carolina. They shall each have at least five years' experience in radiation technology practice, education, administration, or radiation technology training, including the three years immediately preceding appointment to the Board, and shall continue such practice, administration, or education and training while on the Board. The first radiation technologists appointed to the Board pursuant to this

section shall, upon their appointment and qualification, immediately become licensed as radiation technologists by complying with the provisions of this Article.

- (e) Term of Office. Each elected member shall be elected for a term of three years and shall serve until a successor is appointed. No member may serve more than two consecutive full terms.
- (f) Vacancies. Vacancies shall be filled in the same manner as the original appointment except that all unexpired terms on the Board shall be filled in accordance with G.S. 120-122 and shall be filled within 45 days after the vacancy occurs. Appointees to fill vacancies shall serve the remainder of the unexpired term and until their successors have been duly elected or appointed and qualified.
- (g) Removal. The Board may remove any of its members for neglect of duty, incompetence, or unprofessional conduct. A member subject to disciplinary proceedings shall be disqualified from Board business until the charges are resolved.
- (h) <u>Compensation</u>. Each member of the Board shall receive such per diem compensation and reimbursement for travel and subsistence as shall be set for licensing boards generally.
- (i) Officers. The officers of the Board shall be a chairman, who shall be a licensed radiation technologist, a vice-chairman, and other officers deemed necessary by the Board to carry out the purposes of this Article. All officers shall be elected annually by the Board for one-year terms and shall serve until their successors are elected and qualified.
- (j) Immunity from Suit. Individual Board members shall be immune from civil liability arising from activities performed within the scope of their official duties.
- (k) Meetings. The Board shall hold at least two meetings each year to conduct business and shall adopt rules governing the calling, holding, and conducting of regular and special meetings. A majority of the Board members shall constitute a quorum.

### "§ 90-408. Powers of the Board.

- (a) The Board shall have the following general powers and duties:
  - (1) Administer this Article;
  - (2) <u>Issue its interpretations of this Article;</u>
  - (3) Adopt, amend, or repeal rules as may be necessary to carry out the provisions of this Article in accordance with Chapter 150B of the General Statutes;
  - (4) Establish qualifications of, employ, and set the compensation of the executive director who shall be a radiologic technologist and shall not be a member of the Board;
  - (5) Employ and fix the compensation of other personnel that the Board determines are necessary to carry into effect the provisions of this Article and incur other expenses necessary to effectuate this Article;
  - (6) Examine, determine qualifications and fitness, and renew the license of duly qualified applicants for licensure or relicensure;
  - (7) <u>Issue</u>, renew, deny, suspend, or revoke licenses to practice radiation technology and carry out any of the disciplinary actions authorized by this Article;

- 1 (8) Accept approved educational programs, as defined in G.S. 90-406;
- 2 (9) Conduct investigations for the purpose of determining whether violations of this Article or grounds for disciplining licensees exist;
  - (10) Conduct investigations to determine labor force needs for radiation technologists in North Carolina;
  - (11) Maintain a record of all proceedings and make available to licensees and other concerned parties an annual report of all Board action;
  - (12) In accordance with G.S. 90-412, set fees for licensure, license renewal, examination, reexamination, and other services deemed necessary to carry out the purposes of this Article; and
  - (13) Adopt a seal containing the name of the Board for use on all certificates, licenses, and official reports issued by it.
  - (b) The powers and duties enumerated above are granted for the purpose of enabling the Board to protect the public health, welfare, and safety against unqualified or incompetent practitioners of radiation technology and shall be liberally construed to accomplish this objective.

#### "§ 90-409. Executive Director.

The Executive Director shall perform the duties prescribed by the Board, serve as treasurer to the Board, and furnish a surety bond as required by the Board. The bond shall be made payable to the Board.

### "§ 90-410. Custody and use of funds.

The Executive Director shall deposit in financial institutions designated by the Board as official depositories all fees payable to the Board. The funds shall be deposited in the name of the Board and shall be used to pay all expenses incurred by the Board in carrying out the purposes of this Article. Such funds shall be annually audited by the State Auditor.

## "§ 90-411. The Board may accept contributions, etc.

The Board may accept grants, contributions, devices, bequests, and gifts that shall be kept in a separate fund and shall be used by it to enhance the practice of radiation technology.

## "§ 90-412. Expenses and fees.

- (a) All salaries, compensation, and expenses incurred or allowed for the purpose of carrying out the purposes of this Article shall be paid by the Board exclusively out of the fees received by the Board as authorized by this Article, or funds received from other sources. In no case shall any salary, expense, or other obligations of the Board be charged against the State treasury.
  - (b) The schedule of fees shall not exceed the following:
    - (1) Each application for examination (including the cost of examination) \$70.00
    - (2) Certificate of licensure without examination 50.00
- 41 (3) Each application for reexamination (including the cost of examination)
  42 55.00
  - (4) <u>Licensure renewal</u> 35.00
    - (5) Reinstatement of lapsed license to practice 50.00

(6) Reasonable charges for duplication services and material.

### "§ 90-413. Technologists previously registered.

 The Board shall issue a license to practice as a radiation technologist to any individual who applies to the Board within one year from the effective date of this Article and furnishes to the Board on a form approved by the Board proof of employment either as a radiologic technologist, or a radiation therapy technologist, or nuclear medicine technologist. In addition, the following must be shown for each specialty:

- (1) Radiologic Technologist. A current certificate from the American Registry of Radiologic Technologists in radiologic technology (radiography).
- (2) Radiation Therapy Technologist. A current certificate from the American Registry of Radiologic Technologists in radiation therapy.
- (3) <u>Nuclear Medicine Technologist.</u> A current certificate from the <u>American Registry of Radiologic Technologists in nuclear medicine or the Nuclear Medicine Technology Certification Board.</u>

#### "§ 90-414. Technologists not registered.

Individuals who have been engaged in the practice of radiation technology under the supervision of a licensed practitioner for four years before January 1, 1993, and have continued to practice under such conditions up to the time of application under this section, shall be eligible for licensure without examination in their specialty of radiologic technology (radiography), radiation therapy technology, or nuclear medicine technology by meeting the following criteria:

- (1) Proof of good moral character; and
- (2) Proof of practice in North Carolina for the two years immediately preceding the effective date of this Article.

Any application made pursuant to this section must be filed with the Board on or before January 1, 1994.

### "§ 90-415. Licensure without examination.

The Board may issue a license to practice, without examination, to an applicant:

- Who is duly licensed in good standing under laws of another state when that state's requirements for licensure as a radiation technologist are substantially equivalent to or exceed those of the State of North Carolina at the time the applicant was initially licensed, and when in the Board's opinion, the applicant is competent to practice as a radiation technologist or as the case may be; or
- Who has met all criteria for licensure by examination in North Carolina and who is registered in good standing in conformance with the appropriate criteria established in G.S. 90-413(1), (2), or (3).

## "§ 90-416. Applicants for examination.

Any person who desires to be licensed pursuant to G.S. 90-414 must submit an application on a form approved by the Board and must demonstrate proof of (i) good moral character, and (ii) graduation from an educational program as defined in this Article.

#### **"§ 90-417. Examination.**

At least twice each year, the Board shall give an examination to applicants for licensure at a time and place to be determined by the Board. The applicants shall be required to pass a written examination. When the Board determines that an applicant has met all the qualifications for licensure, and has submitted the required fee, the Board shall issue a license to the applicant, showing thereon the appropriate specialty.

### "§ 90-418. Reexamination.

Any applicant who fails to pass the first licensure examination may take different forms of the examination in accordance with rules adopted by the Board.

### "§ 90-419. License renewal.

Every license issued under this Article shall be renewed during the month of January of each year. On or before the date the current license expires, every individual who wishes to continue practice shall apply for a license renewal and submit the required fee. Licenses that are not so renewed shall automatically lapse. A license that has lapsed may be reissued in the same manner as for renewal within five years from the date of lapse. A license that has been expired for more than five years may be reissued only in a manner prescribed by the Board.

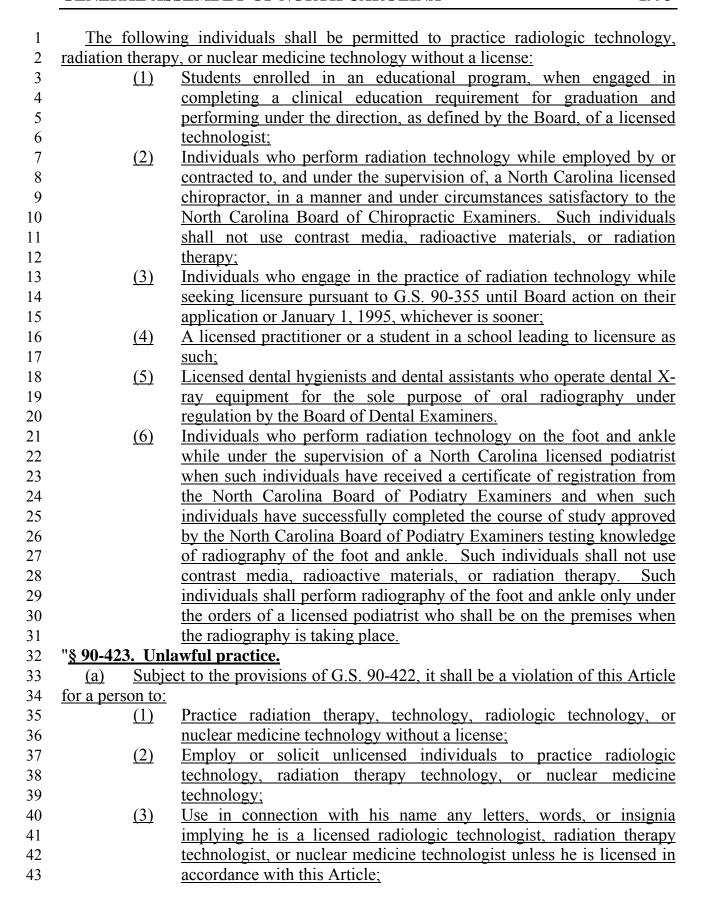

### "§ 90-420. Continuing education.

- (a) The Board shall require evidence of successful completion of a continuing educational program as a condition of license renewal. The Board shall determine the number of hours and subject matter of continuing education required as a condition of license renewal.
- (b) The Board shall grant approval to a continuing education program or course upon finding that the program or course offers an educational experience designed to enhance the practice of radiation technology.
- (c) If the program offers to teach licensees to perform advanced skills, the Board may grant approval for the program and the performance of the advanced skills by those successfully completing the program when it finds that the nature of the procedures taught in the program and the program facilities and faculty are such that a licensee fully completing the program can reasonably be expected to carry out those procedures safely and properly. Nothing in this section or in any other part of this Article may be construed to imply, encourage, or authorize site visits to schools, colleges, or college-used facilities as a part of or as being prerequisite to approval of a program.

#### "§ 90-421. Inactive list.

- (a) When a licensee submits a request for inactive status, the Board shall issue to the licensee a statement of inactive status and shall place the licensee's name on the inactive list. While on the inactive list, the person shall not be subjected to renewal requirements and shall not practice radiation technology in North Carolina.
- (b) When such person desires to be removed from the inactive list and returned to the active list, an application shall be submitted to the Board on a form furnished by the Board and the fee shall be paid for license renewal. The Board shall require evidence of competency to resume the practice of radiation technology before returning the applicant to active status.

# "§ 90-422. Exemptions from licensure.

- 1 (4) Sell, fraudulently obtain, or fraudulently furnish any certificate of graduation from an educational program;
  - (5) Practice radiologic technology, radiation therapy, technology, or nuclear medicine technology, under cover of any fraudulently obtained license; or
  - (6) Conduct an educational program that is not approved by the Board.
  - (b) Any violation of this Article shall be a misdemeanor punishable in the discretion of the court.

### "§ 90-424. Disciplinary authority of the Board.

Grounds for disciplinary action shall include, but not be limited to, the following:

- (1) Giving false information or withholding material information from the Board in procuring or attempting to procure a license to practice as a radiation technologist;
- (2) Having been convicted of or pled guilty or no contest to any crime that indicates that the person is unfit or incompetent to practice as a radiation technologist or that indicates that the person has deceived or defrauded the public;
- (3) Having a mental or physical disability or using any drug to a degree that interferes with his or her fitness to practice radiation technology;
- (4) Engaging in professional conduct that endangers the public health;
- (5) Being unfit or incompetent to practice radiation technology by reason of deliberate or negligent acts or omissions regardless of whether actual injury to a patient is established;
- (6) Conduct an educational program other than as defined in this act;
- (7) Willfully violating any provision of this Article or of regulations enacted by the Board;
- (8) Having pled guilty or no contest to an offense under State or federal narcotic or controlled substance laws or having been found guilty of same.

In accordance with the provisions of Chapter 150B of the General Statutes, the Board may require remedial education, issue a letter of reprimand, restrict, revoke, or suspend any license to practice as a radiation technologist in North Carolina or deny any application of licensure if the Board determines that the applicant or licensee has committed any of the above acts. The Board may reinstate a revoked license or remove licensure restrictions when it finds that the reasons for revocation or restriction no longer exist and that the person can reasonably be expected to practice radiation technology safely and properly.

## "§ 90-425. Enjoining illegal practices.

If the Board finds that any person is violating any of the provisions in this Article, it may apply in its own name to the superior court for a temporary or permanent restraining order or injunction to prevent such person from continuing such illegal practices. The court is empowered to grant such injunctions regardless of whether criminal prosecution or other action has been or may be instituted as a result of such

violation. All actions by the Board shall be governed by the Rules of Civil Procedure and Article 37 of Chapter 1 of the General Statutes. 2

The venue for actions brought under this Article shall be the Superior Court of Wake County, North Carolina.

# "§ 90-426. Reports: immunity from suit.

1

3

4 5

6

7

9

10

11

12

13 14

15

16

17

Any person who has reasonable cause to suspect misconduct or incapacity of a licensee, or who has reasonable cause to suspect that any person is in violation of this Article, shall report the relevant facts to the Board. Upon receipt of such charge, or upon its own initiative, the Board may give notice of an administrative hearing or may, after diligent investigation, dismiss unfounded charges. Any person making a report pursuant to this section shall be immune from any criminal prosecution or civil liability resulting therefrom."

Sec. 2. Severability. If any provision of this Article or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the act and of the application of such provision to other persons and circumstances shall not be affected thereby.

Sec. 3. This act is effective upon ratification.
