A BILL TO BE ENTITLED

AN ACT TO ALLOW DARE COUNTY TO CREATE SPECIAL DISTRICTS TO UNDERGROUND LINES.

The General Assembly of North Carolina enacts:

Section 1. Authorization to Create Utility District. A county board of commissioners may create one or more Utility Districts for the purpose of raising and expending funds to underground electric and telephone utility lines in the district.

Section 2.(a) Procedure. A county board of commissioners may by resolution signify its determination to create a Utility District under the provisions of this act. The resolution shall be adopted after a public hearing thereon, notice of which hearing shall be given by publication at least once, not less than 10 days prior to the date fixed for the hearing, in a newspaper having a general circulation in the county. The notice shall contain a brief statement of the substance of the proposed resolution, shall set forth the boundaries of the district, and shall state the time and place of the public hearing. No other publication of the resolution is required under the provisions of any other law.

Section 2.(b) The resolution shall include articles of incorporation which shall set forth:

- 1 (1) The name of the district;
- 2 (2) A statement that the district is organized under this act; and
- 3 (3) A description of the boundaries, which may include any territory
- 4 designated by the county board of commissioners that is not in the
- 5 corporate limits of any municipality.

6 Section 2.(c) No territory may be in more than one district.

7 Section 2.(d) All territory of a district shall be within the county.

8 Section 2.(e) A certified copy of the resolution signifying the determination to
9 organize a district under the provisions of this act shall be filed with the Secretary of
10 State, together with proof of publication of the notice of hearing on the resolution. If the
11 Secretary of State finds that the resolution, including the articles of incorporation,
12 conforms to the provisions of this act and that the notice of hearing was properly
13 published, the Secretary of State shall file the resolution and proof of publication in the
14 records of that office, shall issue a certificate of incorporation under the seal of the State,
15 and shall record the same in an appropriate book of record. The issuance of the
16 certificate of incorporation by the Secretary of State shall constitute the district, a public
17 body and body politic and corporate of the State of North Carolina. This certificate of
18 incorporation shall be conclusive evidence of the fact that the district has been duly
19 created and established under the provisions of this act.

20 Section 2.(f) When the district has been duly organized and its officers
21 appointed as provided by this act, the secretary or clerk of the district shall certify to the
22 Secretary of State the names and addresses of the officers as well as the address of the
23 principal office of the district.

24 Section 3.(a) Annexation to District. By adoption of a resolution, and with the
25 approval of the board of commissioners of a county by resolution, any municipality
26 located wholly within that county may annex the entirety of that municipality to any
27 Utility District created by this act, but no municipality may be in more than one district.
28 The resolution shall be adopted by the municipal governing board after a public hearing
29 thereon, notice of which hearing shall be given by publication at least once, not less than
30 10 days prior to the date fixed for the hearing, in a newspaper having a general
31 circulation in the county. The notice shall contain a brief statement of the substance of the
32 proposed resolution and shall state the time and place of the public hearing. No other
33 publication of the resolution is required under the provisions of any other law.

34 Section 3.(b) By adoption of a resolution, the board of commissioners of a
35 county may annex any area within that county but not within the corporate limits of any
36 municipality to a Utility District, but no area may be in more than one district. The
37 resolution shall be adopted by the county board of commissioners after a public hearing
38 thereon, notice of which hearing shall be given by publication at least once, not less than
39 10 days prior to the date fixed for the hearing, in a newspaper having a general
40 circulation in the county. The notice shall contain a brief statement of the substance of the
41 proposed resolution, the boundaries of the proposed annexation, and shall state the time
42 and place of the public hearing. No other publication of the resolution is required under
43 the provisions of any other law.

1 Section 3.(c) If any area in a Utility District is annexed to the corporate limits
2 of any municipality, it shall remain in the same Utility District notwithstanding any other
3 provision of this act.

4 Section 4.(a) Governing Board. Each Utility District shall be governed by a
5 special commission consisting of one person appointed by the board of commissioners of
6 that county, one nonvoting member appointed by the board of commissioners of the
7 county who has been recommended by each local telephone exchange carrier licensed to
8 do business in North Carolina and providing service in that county, one nonvoting
9 member appointed by the board of commissioners of the county who has been
10 recommended by each electric utility provider in the county, one nonvoting member
11 appointed by the board of commissioners of the county who has been recommended by
12 each cable television provider in the county, and one person appointed by the governing
13 board of each municipality that has annexed its territory to the district under Section 3(a)
14 of this act.

15 Section 4.(b) In the case of Dare County, one person shall also be appointed to
16 the Special Commission by the Roanoke Island Commission established by Part 27A of
17 Article 2 of Chapter 143B of the General Statutes. Appointments shall be for two-year
18 terms.

19 Section 5.(a) Powers. By resolution the board of commissioners of the county,
20 acting ex officio on behalf of the Utility District, may levy an assessment of up to:

- 21 (1) One dollar (\$1.00) per month on each residential electric power
22 customer bill for service within the district, and up to five dollars
23 (\$5.00) per month on each commercial or industrial electric power
24 customer bill within the district.
- 25 (2) One dollar (\$1.00) per month on each residential telephone customer
26 bill for service within the district and up to five dollars (\$5.00) per
27 month on each commercial or industrial telephone customer bill within
28 the district.

29 Section 5.(b) The Utility District may receive contributions from the State of
30 North Carolina, local governments, and the private sector for corporate purposes
31 authorized by this act.

32 Section 5.(c) The commission may contract with the State of North Carolina,
33 another local government, or a private entity for carrying out the projects authorized by
34 this act. Any State, local government, or other entity which carries out projects
35 authorized by this act, or otherwise takes action affecting any company whose lines are
36 effected pursuant to the terms of this act shall remain fully liable for any damages to
37 company property. Any private sector entity with which the district wishes to contract to
38 carry out projects authorized by this act must be approved in writing in advance by each
39 company whose facilities will be affected and must carry sufficient insurance to cover
40 any damages caused.

41 Section 5.(d) The board of commissioners may exempt from payment of the
42 assessment on an electric bill any person for whom the payment would work an
43 unreasonable financial hardship in accordance with criteria established by the board of

1 commissioners. The board of commissioners shall exempt from payment of the
2 assessment on a telephone bill those low-income residential telephone customers who
3 pay reduced rates for local telephone service pursuant to an order of the North Carolina
4 Utilities Commission.

5 Section 5.(e) The commission may order any cable television lines (or other
6 lines other than electric or telephone) to be undergrounded when any electric or telephone
7 line on the same pole is undergrounded.

8 Section 6. Use of Funds. The assessments levied under this act, after being
9 expended for the necessary administrative expenses of the utility district, shall be used
10 only for undergrounding of electric and telephone utility lines within the district. When
11 an electric or telephone utility line is undergrounded adjacent to a residential premises
12 which is served by that distribution line, the Utility District shall, at no additional cost to
13 the customer, underground the customer service line to the premises and replace or
14 modify the meter base to accept the underground service. The budget for the Utility
15 District shall be adopted by the special commission for that district. The budget shall
16 include funding to pay for the installation of conduit for underground telephone cable,
17 where required.

18 Section 7. Corporate Existence. A Utility District created under this act shall
19 have the power granted by this act, and may do all acts reasonably necessary to fulfill this
20 purpose. A simple majority of the governing board constitutes a quorum, and approval
21 by a majority of those present is sufficient to determine any matter before the governing
22 body, if a quorum is present.

23 Section 8. Fiscal Control. The Utility District is a special district under G.S.
24 159-7 and is covered by the applicable provisions of Chapter 159 of the General Statutes.

25 Section 9.(a) Levy. An assessment authorized by this act may be levied only by
26 resolution, after not less than 10 days' public notice and after a public hearing held
27 pursuant thereto. An assessment authorized by this act shall become effective on the date
28 specified in the resolution levying the assessment. That date must be the first day of a
29 calendar month, however, and may not be earlier than the first day of the third month
30 after the date the resolution is adopted. In establishing the effective date, the board of
31 commissioners shall consult with any utility that will be collecting the assessment to
32 determine any administrative lead times that might be desirable.

33 Section 9.(b) Collection. Every utility subject to an assessment authorized by
34 this act shall, on and after the effective date of the levy of the assessment, collect it. The
35 assessment shall be collected as part of the charge for furnishing service. The assessment
36 shall be stated and charged separately and shall be paid by the purchaser to the utility as
37 trustee for and on account of the Utility District. The assessment shall be passed on to
38 the purchaser instead of being borne by the utility. The Utility District shall design, print,
39 and furnish to all appropriate utilities in the district the necessary forms for filing returns
40 and instructions to ensure the full collection of the assessment. A utility who collects an
41 assessment authorized by this act may deduct from the amount remitted to the Utility
42 District a discount equal to the discount the State allows the utility for State sales and use
43 tax. For the purpose of this act, a utility includes a government entity providing service,

1 a cooperative, and any other utility. A utility shall have the same right to suspend or
2 terminate service for nonpayment of the assessment that it has to suspend or terminate
3 service for payment of any other part of the utility bill. A utility has no obligation to take
4 any legal action to enforce the collection of assessments under this act. The county or the
5 district may initiate a collection action in its name and reasonable costs and attorneys'
6 fees may be awarded to the plaintiff.

7 Section 9.(c) Administration. The Utility District shall administer an assessment
8 it levies under this act. An assessment authorized by this act is due and payable to the
9 district finance officer in monthly installments on or before the last day of the month
10 following the month in which the assessment accrues. Every person, firm, corporation,
11 or association liable for the assessment shall, on or before the 15th day of each month,
12 prepare and render a return on a form prescribed by the Utility District. The return shall
13 state the total gross receipts derived in the preceding month upon which the assessment is
14 levied. A return filed with the district finance officer is not a public record and may not
15 be disclosed except in accordance with G.S. 153A-148.1 as if the Utility District were a
16 county. The Utility District may adopt a payment schedule keyed to the billing cycle of
17 the utility collecting the assessment rather than the calendar month, as long as there are at
18 least 12 billing cycles per year.

19 Section 9.(d) Penalties. A person, firm, corporation, or association who fails or
20 refuses to file an assessment return or pay an assessment authorized by this act as
21 required by law is subject to the civil and criminal penalties set by G.S. 105-236 for
22 failure to pay or file a return for State sales and use taxes. The governing board of the
23 Utility District has the same authority to waive the penalties for an assessment authorized
24 by this act that the Secretary of Revenue has to waive the penalties for State sales and use
25 taxes.

26 Section 9.(e) Increase, Repeal, or Reduction. An assessment levied by a
27 district under this act may be increased not in excess of the maximum allowed by this act,
28 repealed or reduced by a resolution adopted by the board of commissioners of the county,
29 acting ex officio on behalf of the Utility District. Repeal or reduction of an assessment
30 authorized by this act shall become effective on the first day of a month and may not be
31 earlier than the first day of the third month after the date the resolution is adopted.
32 Repeal or reduction of an assessment authorized by this act does not affect a liability for
33 an assessment that was attached before the effective date of the repeal or reduction, nor
34 does it affect a right to a refund of an assessment that accrued before the effective date of
35 the repeal or reduction. In establishing the effective date, the board of commissioners
36 shall consult with any utility that will be collecting the assessment to determine any
37 administrative lead times that might be desirable. Once the lines have been
38 undergrounded and the costs have been paid, the board of commissioners shall terminate
39 the assessment.

40 Section 10. Interlocal Agreements. By interlocal agreement adopted under
41 Chapter 160A of the General Statutes, a Utility District created under this act may
42 contract with a municipality or county to handle assessment collections and fiscal control.

1 Section 11.(a) The district shall coordinate with affected utilities,
2 municipalities, and the North Carolina Department of Transportation to facilitate
3 acquisition of rights-of-way for burial of cable.

4 Section 11.(b) The undergrounding required by this act shall be a coordinated
5 effort between the utility district and the affected electric, telephone, and cable television
6 companies.

7 Section 12. The State Auditor may perform audits pursuant to Article 5A of
8 Chapter 147 of the General Statutes to ensure that funds collected by or paid to the Utility
9 District are being managed in accordance with the provisions of this act, and shall
10 perform an audit at least every two years. The costs of the audit shall be reimbursed to
11 the State Auditor by the Utility District.

12 Section 13. This act applies to Dare County only.

13 Section 14. Sections 1.1 through 11 of S.L. 1999-127 are repealed.

14 Section 15. This act is effective when it becomes law.
