6 Whereas, the Americans with Disabilities Act of 1990 was founded on four
7 principles: inclusion, full participation, economic self-sufficiency, and equality of
8 opportunity for all people with disabilities; and

9 Whereas, the United States Census Bureau reported in 2000 that there were
10 1,117,577 people with disabilities in the State of North Carolina out of a total
11 population of 8,046,485; and

12 Whereas, most families are likely to become affected by someone with some
13 kind of disability; and

15 2003-2004 school year, North Carolina served 193,956 students with disabilities under
16 the Individuals with Disabilities Education Act; and

17 Whereas, research has shown that students with disabilities encounter more
18 difficulty fitting in with their peers, making friends, and becoming involved in school
19 and community-based activities and clubs than their nondisabled peers; and

20 Whereas, in order to ensure the full inclusion of people with disabilities into
21 society, it is necessary to expand the public's knowledge, awareness, and understanding
22 of the history of disabilities and the disability rights movement; and

23 Whereas, October is recognized nationally as Disability Employment
24 Awareness Month; and

25 Whereas, designating Disability History and Awareness Month in North
26 Carolina will increase public awareness and respect for people with disabilities who
27 comprise a substantial percentage of North Carolina's population, teach future

1 generations that people with disabilities have a rich history and have made valuable
2 contributions throughout North Carolina and the United States, and ensure future
3 generations understand that disability is a natural part of life and that people with
4 disabilities have a right to be treated as individuals above all else; Now, therefore,
