The assessor may require the owner of classified property to submit any information, including sound management plans for forestland, needed by the assessor to verify that the property continues to qualify for present-use value taxation. The owner has 60 days from the date a written request for the information is made to submit the information to the assessor. If the property loses its exemption or exclusion for failure to provide the requested information, the assessor must reinstate the property's exemption or exclusion when the owner makes the requested information available within 60 days after the disqualification unless the information discloses that the property is no longer eligible for the exemption or exclusion."

#### **SECTION 1.7.** G.S. 153A-150 reads as rewritten:

#### "§ 153A-150. Reserve for octennial general reappraisal.

Before the beginning of the fiscal year immediately following the effective date of an octennial general reappraisal of real property conducted as required by

G.S. 105-286, the county budget officer shall present to the board of commissioners an eight year a budget for financing the cost of the next octennial general reappraisal. The budget shall estimate the cost of the reappraisal and shall propose a plan for raising the necessary funds in eight-annual installments during the next fiscal years, intervening years between general reappraisals, with all installments as nearly uniform as practicable. The board shall consider this budget, making any amendments to the budget it deems advisable, and shall adopt a resolution establishing a special reserve fund for the next octennial general reappraisal. In the budget ordinance of the first fiscal year of the plan, the board of commissioners shall appropriate to the special reappraisal reserve fund the amount set out in the plan for the first year's installment. When the county budget for each succeeding fiscal year is in preparation, the board shall review the eight-year reappraisal budget with the budget officer and shall amend it, if necessary, so that it will reflect the probable cost at that time of the reappraisal and will produce the necessary funds at the end of the eight year intervening period. In the budget ordinance for each succeeding fiscal year, the board shall appropriate to the special reappraisal reserve fund the amount set out in the plan as due in that year.

Moneys appropriated to the special reappraisal reserve fund shall not be available or expended for any purpose other than the reappraisal of real property required by G.S. 105-286, except that the funds may be deposited at interest or invested as permitted by G.S. 159-30. If there is a fund balance in the reserve fund following payment for the required reappraisal, it shall be retained in the fund for use in financing the next required reappraisal.

Within 10 days after the adoption of each annual budget ordinance, the county finance officer shall report to the Department of Revenue, on forms to be supplied by the Department, the terms of the county's eight year reappraisal budget, the current condition of the special reappraisal reserve fund, and the amount appropriated to the reserve fund in the current fiscal year."

Agricultural land includes woodland and wasteland that is a part of the farm unit, but the woodland and wasteland included in the unit must be appraised under the use-value schedules as woodland or wasteland. A farm unit may consist of more than one tract of agricultural land, but at least one of the tracts must meet the requirements in G.S. 105-277.3(a)(1), and each tract must be under a sound management program. If the agricultural land includes less than 20 acres of woodland, then the woodland portion is not required to be under a sound management program. Also, woodland is not required to be under a sound management program if it is determined that the highest and best use of the woodland is to diminish wind erosion of adjacent agricultural land, protect water quality of adjacent agricultural land, or serve as buffers for adjacent livestock or poultry operations.
- Business entity. A corporation, a general partnership, a limited (1a) partnership, or a limited liability company.
- Forestland. Land that is a part of a forest unit that is actively engaged (2) in the commercial growing of trees under a sound management program. Forestland includes wasteland that is a part of the forest unit, but the wasteland included in the unit must be appraised under the use-value schedules as wasteland. A forest unit may consist of more than one tract of forestland, but at least one of the tracts must meet the requirements in G.S. 105-277.3(a)(3), and each tract must be under a sound management program.
- (3) Horticultural land. – Land that is a part of a horticultural unit that is actively engaged in the commercial production or growing of fruits or vegetables or nursery or floral products under a sound management

program. Horticultural land includes woodland and wasteland that is a part of the horticultural unit, but the woodland and wasteland included in the unit must be appraised under the use-value schedules as woodland or wasteland. A horticultural unit may consist of more than one tract of horticultural land, but at least one of the tracts must meet the requirements in G.S. 105-277.3(a)(2), and each tract must be under a sound management program. If the horticultural land includes less than 20 acres of woodland, then the woodland portion is not required to be under a sound management program. Also, woodland is not required to be under a sound management program if it is determined that the highest and best use of the woodland is to diminish wind erosion of adjacent horticultural land or protect water quality of adjacent horticultural land. Land used to grow horticultural and agricultural crops on a rotating basis or where the horticultural crop is set out or planted and harvested within one growing season, may be treated as agricultural land as described in subdivision (1) of this section when there is determined to be no significant difference in the cash rental rates for the land.

  - a. A natural person. For the purpose of this section, a natural person who is an income beneficiary of a trust that owns land may elect to treat the person's beneficial share of the land as owned by that person. For the purpose of this section, a natural person who is a member of a business entity, other than a corporation, that owns land may elect to treat the person's share of the land as owned by that person. The person's share is a percentage of the land owned by the business entity that corresponds to the person's percentage of ownership in the entity. An individual.
