PRINCIPAL DEPARTMENT(S) & PROGRAM(S) AFFECTED:					
Administrative Office of the Courts; Indigent Defense Services; Department of Public Safety					
EFFECTIVE DATE: October 1, 2017					
TECHNICAL CONSIDERATIONS:					
None					

FISCAL IMPACT SUMMARY:

The proposed bill may have a fiscal impact to address a new chargeable offense being enforced, adjudicated, and having penalties applied to those convicted of the new offense. Impact may also occur from expanding the scope of two existing offenses. However, given that there is no historical data on these new offenses or similar offenses to use as a proxy for predicting the total number of new offenses, the Fiscal Research Division cannot reasonably estimate the total additional costs that may be incurred. The following costs may be incurred for every one person charged and convicted of these crimes:

- Administrative Office of the Courts: \$110 to \$206 per disposition
- Indigent Defense Services: \$201 to \$202 per disposition
- Department of Public Safety (DPS) - Prisons: No cost
- DPS - Community Corrections: Minimum of \$2,072 to \$2,200 per supervised probation sentence

Please see the Assumptions and Methodology section for additional information.

BILL SUMMARY:

Section 1 of the bill creates new Chapter 93F, Interior Design, which includes new G.S. 93F-8, Misdemeanors. This section lists five violations of the new regulatory scheme which are to be charged as Class 2 misdemeanors. Sections 3 and 4 of the bill amend existing G.S. 153A-357 and G.S. 160A-417, respectively, expanding the scope of existing Class 1 misdemeanor offenses for county or municipal employees that do not follow the new procedural requirements set forth in the bill.

ASSUMPTIONS AND METHODOLOGY:

General

The Sentencing and Policy Advisory Commission prepares prison population projections for each bill containing a criminal penalty. The Commission assumes for such bills that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime. Therefore, the Fiscal Research Division does not assume deterrent effects for any criminal penalty bill.

S.L. 2011-192 (H.B. 642), the Justice Reinvestment Act (JRA), made changes to North Carolina's court system, corrections system (both to prisons and probation), and to post-release supervision. All active sentences for felony offenses now result in a minimum of twelve months of post-release supervision (PRS) for B1-E level offenses and a minimum of nine months of PRS for F-I level offenses.

JRA also created the Statewide Misdemeanant Confinement Program (SMCP) for housing misdemeanants with sentences between 90 and 180 days in county jails (misdemeanants with shorter sentences were already the responsibility of the counties). County participation in the program is voluntary. The SMCP pays participating counties for misdemeanants' housing, transportation, and medical costs. In 2014, the program was expanded to include all misdemeanants with sentences longer than 90 days. The Sentencing and Policy Advisory Commission does not track county jail capacity, so it is not possible to estimate the impact of new or increased misdemeanor penalties on county jails.

Judicial Branch

The Administrative Office of the Courts provides Fiscal Research with a fiscal impact analysis for most criminal penalty bills. For such bills, fiscal impact is typically based on the assumption that court time will increase due to anticipated increases in trials and corresponding increases in workload for judges, clerks, and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

The bill creates a new Class 2 misdemeanor offense. Because this is a new offense, AOC does not have historical data upon which to estimate the number of charges that might occur. AOC provides estimates of the average cost to the court for a charge by offense class. For every additional person charged with a Class 2 misdemeanor, the average cost to the court would be \$110.

The bill also expands the scope of two Class 1 misdemeanor offenses. For every additional person charged with a Class 1 misdemeanor, the average cost to the court would be \$206.

The Office of Indigent Defense Services (IDS) has provided Fiscal Research with the frequency and cost of indigent defense services for each level of crime, including the cost differentials for district and superior court with and without a trial and the percentage of cases handled in each category. Fiscal Research used this data to calculate a weighted average of IDS costs. In FY 2011-12, the most recent year data is available, 30% of Class 2 misdemeanor cases were handled through IDS. The weighted average cost of a new Class 2 misdemeanor is \$201 per case for a private appointed counsel (PAC) attorney. For the same time period,

39% of Class 1 misdemeanor cases were handled by IDS for a cost of \$202 per case. These estimates assume the appointment of a PAC attorney. In districts that have Public Defender offices, cases may be handled by those offices. In those instances, these costs may not be incurred.

Department of Public Safety – Prisons

This bill creates a new Class 2 misdemeanor offense and expands the scope of two Class 1 misdemeanor offenses. The North Carolina Sentencing and Policy Advisory Commission expects no impact on the prison population because all misdemeanor offenders who receive active sentences will serve them in the local jail.

Department of Public Safety – Community Corrections

All misdemeanor offenders may be given non-active (intermediate or community) sentences exclusively, or in conjunction with imprisonment (split-sentence). Sanctions include electronic house arrest, community service, substance abuse treatment, participation in educational or vocational skills development, payment of court costs, fines, and restitution, and short-term jail sentences not exceeding six days per month.

JRA essentially eliminated the distinction between “community” and “intermediate” supervision. Under structured sentencing, the two types of supervision were each defined by a set of specific sanctions. Under JRA, both community and intermediate probation may now include electronic monitoring, short-term periods of confinement, substance abuse assessment, monitoring, and treatment, participation in educational programs or vocational skills development. Whether a probationer is subject to more stringent conditions is determined by the results of a risk-needs assessment administered by the Department of Public Safety.

All types of post-release supervision, including intermediate or community sanctions, are supervised by the Community Corrections (CCS); CCS also oversees community service. General post-release supervision and supervision of intermediate and community offenders by a probation officer costs \$148 per offender, per month; no cost is assumed for those receiving unsupervised probation, or who are only ordered to pay fines, fees, or restitution. Total costs are based on average supervision length and the percentage of offenders (per offense class) sentenced to active sentences requiring post-release supervision, intermediate sanctions and supervised probation.

In FY 2015-16, 34% of Class 2 misdemeanor offenders received active sentences; 66% received probation. Active misdemeanor sentences are served in local jails and do not require any post-release supervision. The average length of probation imposed for this offense class was 14 months. Therefore, at a minimum, one Class 2 misdemeanor conviction resulting in probation will require at least 14 months of supervision. The cost of 14 months of supervision is \$2,072 per offender (\$148 per month times 14 months).¹

In FY 2015-16, 31% of Class 1 misdemeanor offenders received active sentences; 69% received probation. Active misdemeanor sentences are served in local jails and do not require any post-release supervision. The average length of probation imposed for this offense class was 15 months. Therefore, at a minimum, one Class 1 misdemeanor conviction resulting in probation will require at least 15 months of supervision. The cost of 15 months of supervision is \$2,200 per offender (\$148 per month times 15 months).¹

SOURCES OF DATA: Department of Public Safety; Administrative Office of the Courts; North Carolina Sentencing and Policy Advisory Commission; Office of Indigent Defense Services.

TECHNICAL CONSIDERATIONS: None

¹ Due to the effective date of December 1, 2017 and the typical lag time between charge and conviction (6 months), little impact is assumed for CCS in FY 2017-18. Though some offenders may come under CCS supervision during this time, this note assumes an even entry over the course of FY 2018-19.
